Note on Vertical Placement	This is a dedicated 'Chillies & its byproducts' numainda form with its own full field set (incl. Export CNF/CIF pricing and bag fields). Per the master reference doc, Green Chilli varieties + Red Desi Chilli conceptually belong to the Vegetables vertical, and the 5 named red hybrids (Hybird/Longi/Rich Star/Shingri/Summer Queen) belong to the Spices vertical - but since the live site collects them all through this one standalone form, they are kept together here as the authoritative source.
